Profile Summary

Results-driven **Software Development Engineer (SDE)** with expertise in **React.js, Next.js, TypeScript, Node.js, Express.js, and Kubernetes**. Skilled in designing and deploying **scalable, cloud-native applications** using **Docker, Kubernetes, and AWS**. Strong background in **backend optimization, microservices architecture, and database management** with **MongoDB, and Redis**. Certified **CKA, CKAD, and KCNA** professional with hands-on experience in **DevOps, CI/CD, and cloud infrastructure**. Recognized as a **Best Performer** for taking full **ownership** of projects, delivering high-impact solutions, and fostering seamless **cross-team collaboration**.

WORK EXPERIENCE

Livlong365

Software Developer

July-23 - Present

- Developed **scalable frontend** with **React.js, Next.js, and TypeScript**, ensuring seamless UX.
- Built and optimized **backend services** with **Express.js** for high performance.
- Took **ownership** of end-to-end development, from planning to deployment.
- Utilized **Docker & Kubernetes** for efficient containerization and orchestration.
- Designed **microservices architecture** to enhance scalability and maintainability.
- Collaborated across teams for **seamless communication and project alignment**.

Tech Stack: React.js | Next.js | TypeScript | Node.js | Express.js | Docker | Kubernetes

Idea Usher (Internship)

Backend Developer

Nov-22 - April-23

- Took **full ownership** of backend development tasks, from planning to deployment.
- Developed and optimized **RESTful APIs** using **Node.js, Express.js, and TypeScript** for seamless communication.
- Designed and managed **MongoDB schemas, queries, and indexing** to enhance database performance and Implemented **Redis caching** to reduce database load and improve response times.
- Ensured **scalability and security** by integrating authentication, authorization, and best practices.
- Collaborated with **cross-functional teams** to deliver efficient and reliable backend solutions.

Tech Stack: Node.js | Express.js | MongoDB | TypeScript | Redis

Conglem.ai (Internship)

Software Developer

Aug-22 - Oct-22

- Built **scalable** React.js & Next.js apps with **TypeScript** for seamless UX.
- Styled UI with **Tailwind CSS**, ensuring modern, responsive design.
- Optimized **performance, API interactions, and rendering**.
- Enhanced **code efficiency** with reusable components.
- Collaborated with **backend engineers & designers** for smooth integration.

Tech Stack: React.js | Next.js | TypeScript | Tailwind CSS

EDUCATION

Vishwakarma Institute of Technology, Pune

B.Tech in Electronics and Telecommunication - 8.6

June-2019 - June-2023

Sadashivrao Mane Vidyalay, Akluj

Science -12th - 87.54

June-17 - June-19

Maharshi Shankarrao Mohite Prashala, Yashwantnagar

SSC (10th) - 91.80

June-16 - June-17

PROJECTS

Craft-UI

Sept-24 - Sept-24

- Designed and developed **Craft-UI**, a full-stack project inspired by **ShadCN UI** for building modern UI components.
 - Built the **frontend** using **React, Remix, Tailwind CSS, custom React hooks, and TypeScript**, ensuring a seamless developer experience.
 - Developed the **backend** with **Node.js, Express.js, Sequelize, and TypeScript**, implementing **JWT-based authentication** for secure access.
 - Deployed the application on **AWS EC2** using **Docker and Kubernetes**, ensuring scalability and efficient container orchestration.
 - Focused on **scalability, performance, and developer-friendly API design**, making UI development more efficient.
 - Ensured **efficient state management** and optimized rendering to enhance performance.
- Tech Stack:** React | Remix | Tailwind CSS | TypeScript | Custom React Hooks | Node.js | Express.js | Sequelize | JWT Authentication | Docker | Kubernetes | AWS

AWS-Powered Cloud-Native 3-Tier Application Deployment on Kubernetes

Jan-25 - Jan-25

- Designed and deployed a **3-tier application** on **AWS** using **Kubernetes**, ensuring scalability and resilience.
 - Utilized **Docker** to containerize services and **AWS EC2** to host the Kubernetes cluster.
 - Enabled **seamless microservice communication** within the cluster for efficient request handling.
 - Configured an **Ingress Controller** to manage external traffic and expose services securely to the public.
 - Ensured **high availability, fault tolerance, and optimized performance** using best cloud deployment practices.
- Tech Stack:** AWS | Docker | Kubernetes | EC2 | Ingress Controller | Microservices | Cloud Deployment

SKILLS

Languages: Typescript, JavaScript, Shell Scripting (Bash)
Frameworks/Libraries: React.js, Node.js, Express.js, JWT, Next.js
Database: MongoDB, Redis cache
Cloud/Devops: Docker, Kubernetes, AWS, Jenkins, Linux

CERTIFICATE

Certified Kubernetes Application Developer (CKAD) Scored- 80%

- Expertise in **designing, deploying, and managing cloud-native applications** on Kubernetes.
 - Proficient in **Pods, Deployments, ConfigMaps, Secrets, Networking, and Persistent Storage**.
 - Hands-on with **kubecttl, Helm, and YAML manifests** for efficient workload management.
- Certified Kubernetes Administrator (CKA) scored - 81% **
- Expertise in **Kubernetes administration, troubleshooting, and security** for production environments.
 - Proficient in **deployments, networking, storage, and RBAC**, ensuring system reliability.
 - Hands-on with **kubecttl, kubeadm, Helm, and monitoring tools** for efficient cluster operations.
- Kubernetes and Cloud Native Associate (KCNA) Scored- 95% **
- Demonstrated foundational knowledge of **Kubernetes, cloud-native architectures, and containers**.
 - Proficient in **Kubernetes fundamentals, cloud-native security, networking, and observability**.
 - Strong understanding of **CNCF projects, containerization, and microservices principles**.

AWARD

Best Performer Award Livlong

- Recognized for exceptional contributions, technical excellence, and commitment to delivering high-impact solutions.
- Demonstrated **strong problem-solving skills, ownership mindset, and cross-team collaboration**.
- Consistently delivered high-quality work, ensuring efficiency, scalability, and innovation.
